**What book is on your bedside table?**

From Light into Darkness: The Evolution of Religion in Ancient Egypt by Stephen S. Mehler (Adventures Unlimited Press, \$17).

**Page-turner or doorstep?**

Page-turner—that is, if you are interested in how a great cataclysm of 9500 BC nearly wiped out all human civilizations in the world, and how this dramatically changed human spiritual practices and lifestyles!

**Describe the book in one sentence.**

It is a new way of looking at how the modern religions of Judaism, Christianity, and Islam developed out of practices from ancient Egypt.

**If you designed a poster for the book, what would it look like?**

You would see the Great Pyramid shimmering with brilliant white light all around it.

**List three new words you learned from reading it.**

“Khemitologist,” “Neter,” and “Wizzer-Osiris.”

**To whom would you recommend this book?**

People interested in the unknown and hidden history of religion, the spiritual teachings of the very ancient Khemitians, and of course, anyone considering visiting Egypt on a Sacred Journey!

**How would you rate the book, on a scale of 1-10?**

It is a 10—no one reading this book will come away with the same understanding of the history of religion.

**They say that everyone has one great novel in them. What would yours be about?**

I don't know, but I would really like a step-by-step manual on how to maintain balance in this busy life we lead!
